# Mini Cabin Tent

## Description

The Mini Cabin tent is made with high performance, High Density Poly Canvas. The tight weave and silicone finish make this canvas watertight yet breathable, minimizing condensation and mugginess that are common with synthetic tents. The sewn-in floor is a tough 280gsm HDPE with welded seams, that keeps water out. The tall ceiling (6.5 ft. at peak) and vertical wall design (4 ft. at sides) provide a roomy interior with stand-up, walk-around comfort. The large front door means no crouching when you come and go. Five large windows provide openness, and excellent airflow. Windows can be opened and closed from inside the tent, and feature no-see-um, screen mesh that keeps the smallest bugs out. A covered storm window and vents can be opened to circulate outside air, even when rainy. The door and windows feature top-rated zippers. This design, boasting a frame with 1-inch, Aluminum tubing, will hold up to strong winds and even snow loads.

# Bell Tent

## Description

Our classic 4m bell tent in an equally classic white color, we happen to think this is glamping essential. Roomy inside and packed full of smart features and has been manufactured exclusively by us. These tents offer incredibly easy access, with a door height of 170cm. You'll also be kept cool and comfortable thanks to the four zipped windows and air vents at the top, while every one of these tents is made from 100% natural, breathable canvas so you won't be waking up in a sweat. It's also mold, rot, and water-repellent.

In front, there's a secondary mosquito net door behind the main door. Draping down from the center are thicker metal guy ropes, creating that distinctive vintage shape outside and a beautifully chilled ambiance within. We've also included extra-strong pegs that won't bend, making this tent sturdy in windy weather and bad conditions. The perfect size for couples, up to 4+ adults can also sleep comfortably inside, giving this tent the feel of a luxurious open-plan bedroom. Each tent can be assembled by one person, with everything needed for assembly included in the pack.

# Wander Tent

## Description

- Spacious camping tent for four men complete with sewn-in groundsheet to keep draughts and damp at bay with two sleeping cabins with protective mosquito mesh for insect-free nights. With lots of functional extras such as air-vents, two entrances which can double-up as sunshades, a sturdy carrying bag and full set of instructions. Four berth family tents with a comfortable peak height of 200 cm, plenty of space for luggage and camping furniture and with two cozy sleeping pods for a good night's sleep.
- The fabric is made of better waterproof polyester, the fabric is more compact, and the inside is coated with silver, which is more resistant to ultraviolet rays. It is an ideal choice for outdoor sunshade.
- It adopts high-strength aluminum alloy ground nails, which is hard and has no metal toughness. It is safe and reliable, and it is matched with windproof rope to strengthen the stability of the tent.

# Empror Tent

## Description

Made in our premium cotton canvas, we designed this eye-catching model for those who really want to take their glamping to the next level. With two centre poles creating exceptional headspace, the tent's two doors and three A-frames means the Emperor can also be connected to other structures as desired. This large majestic bell tent is cavernous and for the size is a dream to put up quickly. It's a must for a long family camping holiday or a large group gathering and the perfect chill out space for a wedding or party. With plenty of space for each member of the group to claim a corner as their own or filled with straw bales and beanbags for the ultimate outdoor chill out lounge, it's an eye-catching addition to a camping or party occasion.

# Grandview Tent

## Description

The Grandview is the king of camping tents. Camp in comfort and style with this rugged and versatile, full-featured, canvas cabin tent, ideal for those extended use occasions. The tent features three rooms: The grand room in the center (11.5 x 8 ft.), and left and right bedrooms (8 x 7 ft.). The rooms are divided with canvas curtains with zippered doors. A spacious 12 x 8 ft. awning with an optional wall enclosure (sold separately) creates the perfect picnic or living area, providing shade, and protection from the weather and critters. Eight large windows provide openness, outside views, and excellent airflow. The no-see-um screen mesh keeps out the smallest pests. Four doors with top-grade #10 zippers offer convenient access. The doors are located front and back on the grand room (center) and at the end of each bedroom. The tall ceiling (7.5 ft at peak) and steep wall design (5 ft at the ends) provide a roomy interior with stand-up, walk-around comfort. Made with premium grade, Poly Cotton Canvas. The tight weave and silicone finish make this canvas watertight, yet breathable.

# Bell Tent Lite

## Description

Our lite 4m bell tent in an equally classic sandstone color, we happen to think this is glamping essential. Roomy inside and packed full of smart features and has been manufactured exclusively by us. These tents offer incredibly easy access, with a door height of 170cm. You'll also be kept cool and comfortable thanks to the four zipped windows and air vents at the top, while every one of these tents is made from 100% natural, breathable canvas so you won't be waking up in a sweat. It's also mold, rot, and water-repellent. In front, there's a secondary mosquito net door behind the main door. Draping down from the center are thicker metal guy ropes, creating that distinctive vintage shape outside and a beautifully chilled ambiance within. We've also included extra-strong pegs that won't bend, making this tent sturdy in windy weather and bad conditions. The perfect size for couples, up to 4+ adults can also sleep comfortably inside, giving this tent the feel of a luxurious open-plan bedroom. Each tent can be assembled by one person, with everything needed for assembly

# Geodesic Tent

## Description

The dome is highly durable and spacious. It is not prone to the downsides of weather wear and destruction, tearing, mold, and other such problems as found in bell-tents, yurts, or raw canvass domes. It is also much less expensive than the cost of building a wood frame dome. This beautiful, high-performance geodesic dome offers a spacious and cozy interior that takes in the surrounding nature and lends a serene impression on the mind. Whether your vision is to create a personal nature retreat, backyard guest house, or build a top-notch glamping business, these domes are the best investment on the market, hands down. Domes for a living are a superior structure utilizing the least material. Frames are constructed to support both internal and external weight loads. Included with the purchase is a waterproof PVC cover part white and part clear bay window. Steel tube framing constructed with stoving varnish for added protection. Screen window. Easy assembly for two people, A-frame ladder required.
