Message From Founder

We believe in the very basic rule that "the better the quality within an economy the higher would be the demand for our products and services both nationally and internationally". I think that only those entrepreneurs who will compete on the basis of consumer preferences, quality and design rather than price only will endure and survive. Our skilled, energetic and experienced team is working more hard, honestly and continuously to maintain our leadership status in the tent and canvas industry by always satisfying our precious customers. I am thankful to all my companies, children, team members, buyers and above all to my Almighty ALLAH for his blessings, support and courage.

Mr. Ejaz Ahmed Malik
